# Our Promise

## About Us

Lehigh Photo Service (LPS) would like to thank your league for the opportunity to submit the following proposal, detailing the services we aim to provide. First, we'd like to give you a little background information about our company. Lehigh Photo Service has been family owned since 1961, and has been specializing in sports photography alone since 1990. Here at LPS, we are the official photographer for the Division II & III NCAA Baseball Championships and work closely with the Babe Ruth Baseball organization photographing their regional and World Series tournaments. Some of our other clients include the NFL's Jacksonville Jaguars, Cal Ripken Baseball, and numerous other leagues all over the state of Florida. Most of our leagues have been with us for several years now due to our extreme attention to detail and excellent customer service.

## Photo Day

LPS will work with the league in order to set up a photo day with the goal of photographing each and every team within the league. On this day, LPS will arrive with a small crew that will include sales people, posers, assistants, and at least two photographers. In accordance with the league, a schedule will be set up allowing the 2 photographers to photograph 8 teams per hour.

## Delivery

Once photographed, your league can expect 1-2 weeks for delivery of the button and magnet fundraiser, and approximately 4 weeks for delivery of photograph orders.
